

Los Angeles Times

1976 NOVEMBER ?

The 22-year-old son of Church of Scientology founder L. Ron Hubbard was cremated in Las Vegas at the request of his family. Nevada officials said the remains would be brought to Los Angeles, where the church has its main headquarters. Geoffrey Hubbard of Clearwater, Fla., died Nov. 12 at Southern Nevada Memorial Hospital in Las Vegas. The cause of his death is still a mystery; he was found in a semicomatose condition in Las Vegas Oct. 28 and died before being identified. Neither an autopsy nor a toxicological examination disclosed the cause of death, and results of microscopic tests will not be known until next week, Clark County authorities said.
