

A TRIBUTE

L. RON HUBBARD 1911 - 1986

March 13th marks the anniversary of the birth of one of the world's greatest friends - author, philosopher and humanitarian - L. Ron Hubbard.

On this special day we would like to acknowledge his great contributions to mankind.

“Ideas and not battles mark the forward progress of mankind. Individuals, and not masses, form the culture of the race.”

L. Ron Hubbard from his book Science of Survival
